

TANDRA AMRUTHA REDDY

Experienced Flutter Developer Specializing in Mobile Application Development

7032093156 • amruthachikki19@gmail.com • Github

Summary

Aspiring and detail-oriented Flutter Developer with 2 years of extensive experience in mobile application development. Proficient in both front-end and back-end development, with a strong focus on debugging and generating innovative solutions. I aim to leverage my technical skills to develop user-centric applications that create a substantial impact.

Skills

Core Skills

Flutter ,Dart ,Java
JavaScript ,HTML,CSS

Work Experience

Flutter Developer

06/2023 - Current

Brane Enterprises

Hyderabad, Telangana, India

- Extensive experience in Flutter development utilizing Dart and focusing on OOP principles within the Flutter framework encompassing Widgets, Navigation, and State management through BLOC and GetX.
- Executed responsive design implementations and customized theming within Flutter applications to ensure a high-quality user experience across all device types.
- Actively participated in projects that developed applications using a drag-and-drop platform, achieving significant performance optimization and enhancing client satisfaction metrics.
- Streamlined workflows by integrating with a no-code platform (NSL), thus reducing the overall development timeline.
- Adept at leveraging Flutter plugins and profiling tools for debugging and application optimization, resulting in improved user experience.
- Designed and enhanced multiple interfaces for projects such as Drag-Ease, emphasizing UI/UX to elevate application standards.

Intern

12/2022 - 05/2023

DevIndia Technologies

- Developed and implemented highly responsive UI/UX designs while effectively integrating third-party APIs to elevate user engagement.
- Acquired significant insights into team dynamics and organizational workflows, enhancing collaboration and overall contributions to projects.

Education

CVR College Of Engineering

01/2019 - 12/2023

Bachelor of Technology - Computer Science and Engineering

GPA 8.12

Projects

Chat With Me

09/2024 - 10/2024

- Developed a minimal social media app using Flutter, leveraging Firebase for backend integration.
- Implemented user authentication (login and registration) via email using Firebase Authentication.
- Enabled users to post messages on the home page and displayed the number of active users.
- Built one-to-one chat functionality using Firebase Firestore for real-time messaging.
- Ensured smooth performance and an intuitive UI/UX design for enhanced user experience.

To-Dos List

Built an interactive, user-friendly task management app using JavaScript, HTML, and CSS for responsive design. Developed features for adding, viewing, and deleting tasks with descriptions, enhancing the user experience and engagement. Integrated local storage to maintain persistent data, ensuring tasks remain available across sessions without backend dependencies. Focused on delivering a clean UI/UX, improving usability with intuitive layout and smooth interactivity for daily task tracking.

SUMMARY

Computer Science Engineering graduate with 14 months of experience as a Mobile Application Developer in Brane Enterprises.. Proficient in Flutter, I have honed my expertise in developing front-end interfaces for various websites and contributed to backend functionality in multiple projects. My experience includes providing innovative ideas to the team for project improvement and having some knowledge in debugging errors. Passionate about creating applications that benefit society and seeking a Developer position to further leverage my skills.

SKILLS

Flutter Dart Java

PROFESSIONAL EXPERIENCE

Brane Enterprises

Flutter Developer

June 2023 - Present

- **Flutter Development:** 14 months of hands-on experience with Dart (OOP concepts) and the Flutter framework, including Widgets, Navigation & Routes, and State management using BLOC and GetX.
 - **UI/UX:** Implemented responsive designs , Custom Theming in Flutter applications and ensuring a seamless user experience across devices.
 - **Project Work:** Collaborated in a project to generate applications using a drag-and-drop platform, including importing designs from Figma.Developed multiple client-specific applications,using our project optimizing performance and significantly improving client satisfaction.Integrated our project with a no-code platform (NSL), streamlining workflows and reducing development time.
 - **Tools & Debugging:** Proficient in using Flutter plugins and profiling tools for efficient debugging and application optimization.
 - **Figma & Design:** Designed multiple screens for projects, focusing on UI/UX to significantly enhance the overall application quality.
-

EDUCATION & CERTIFICATIONS

Bachelor of Technology (2019-2023)

Majors: Computer Science and Engineering

CVR College Of Engineering

EXPERTISESKILLS

- Dart(OOPS concept)
- Flutter Frameworks(Widgets, Navigation \$Routes, State management(BLOC, getX))
- Flutter UI(responsive ,Theme implementation)
- Flutter plugins and profiling tools (debugging)
